

Private Markets - Accounting/Finance *1Q 2020 Market Update*

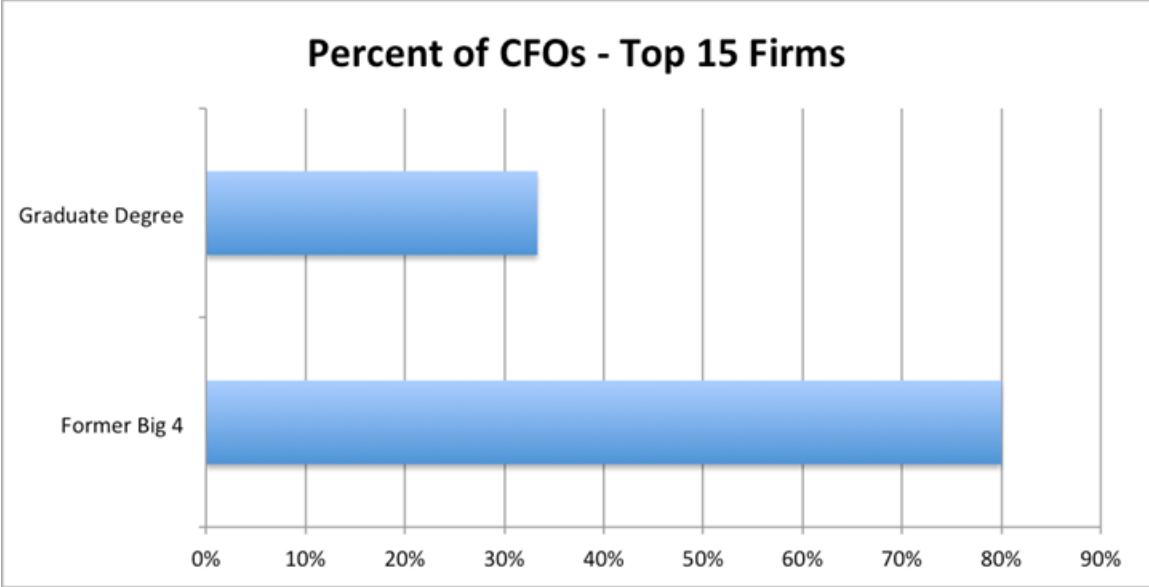

Demand for accounting/finance talent in private markets rose slightly through the first quarter, but we expect it to show a sharp drop in April as postings expire. Most firms have put all hiring on hold citing both uncertain markets and logistical issues with closed offices. Based on our conversations with leadership, however, we expect to see a spike in demand on the back end of the current situation both in existing requirements put on hold and in specialized talent required for shifting market environment.

JOB POSTINGS

(Accounting, Finance, Valuations, Treasury, Tax, FP&A)

Our firm has mapped most of the teams under the CFOs of the top 15, standalone, PE firms in the US. Between this and the broader search work we've done over the years we've built a network of over **1550** profiles from Associate up to CFO. We looked at the CFOs of the top firms and found a few interesting points about their experience and education:

as well as their tenure at their firm and their total years of experience:
